

Luciano Assad

Senior Solutions Consultant · Dallas, TX

Senior Solutions Consultant with 15+ years in enterprise pre-sales, solution architecture, and analytics across the US and Latin America. Provide functional technical leadership across customer engineering, Sales, Support, and Product: align requirements, guide technical workstreams, and develop colleagues through enablement. Combine this coordination with hands-on demonstrations, proofs of concept, and SDK integration. Experience spans smart data capture, enterprise analytics, and real-time decisioning. Fluent in English, Portuguese, and Spanish.

01 Scandit

2022 — Present

Solutions Consultant → Senior Solutions Consultant

Brazil → Dallas, TX, USA

- Lead technical workstreams for multimillion-dollar enterprise opportunities, aligning customer requirements, solution architecture, PoC scope, and integration plans across Sales, Support, Product, and customer engineering.
- Previously served as the primary technical resource for multi-year engagements with a Fortune 500 retailer, covering store associate applications, inventory workflows, and in-store data capture. Continue to provide advisory technical support to the account team.
- Build customer-specific demos and prototypes across iOS, Android, React Native, Flutter, Cordova, and web SDKs. Evaluate scanning performance, camera behavior, and mobile devices to guide integration decisions.
- Structure technical delivery with pilot dashboards, integration documentation, and execution plans drawn from customer on-site findings. Keep stakeholders aligned and coordinate cross-functional follow-through on complex integration requirements.
- Guide and mentor colleagues through technical onboarding and partner enablement. Previously served as the primary technical lead for Brazil and a ShelfView product specialist across the Americas.
- Delivered product demonstrations and customer technical discussions at Scandit's exhibitor booth at NRF Big Show in 2024, 2025, and 2026.

02 Pegasystems

2020 — 2022

Senior Solutions Consultant

Brazil

- Main technical resource for telecom accounts in Brazil, leading discovery, executive workshops, and proofs of concept for Pega Customer Decision Hub and Next Best Action.
- Scoped RPA/RDA and hyperautomation proofs of concept for order-flow correction and provisioning visibility.
- Telecommunications and Customer Decision Hub Specialist for Brazil, November 2021–July 2022. Solutions Consultant of the Quarter, LATAM, Q1 2021.

03 Qlik

2018 — 2020

Pre-Sales Enterprise Architect

Brazil

- Achieved 120% of sales quota in 2018; finalist for Americas Pre-Sales of the Year in 2019.
- Designed QlikView and Qlik Sense architectures for enterprise accounts across retail, manufacturing, telecom, pharmaceuticals, financial services, and the public sector.
- Contributed to cloud and mobile analytics for a large retailer and public-health dashboards using Qlik Analytics Platform and HTML, JavaScript, and CSS mashups.
- Presented Hybrid Cloud Data Architectures & Data Movement at QlikWorld 2020; hosted Americas Fireside Chats and contributed to a Qlik Sense Administrator Cookbook.

Senior Data Warehouse Analyst

USA · supporting USA and Canada operations

- Launched QlikView for JBS USA and Canada, expanding adoption from 200 users to 2,000+ across 46 industrial units between 2016 and 2018.
- Coordinated QlikView training for more than 2,000 users and BI application development across Sales, HR, Pricing, IT, and Operations.

Business Specialist

Brazil

- Coordinated and developed BI applications for the Beef Division in Brazil, growing adoption from 500 users in 2013 to 2,500 in 2015. Mapped manufacturing processes and delivered operational KPIs.
- Established development practices and visual standards for internal developers and contractors. Delivered executive mobile analytics using Qlik Sense.
- Supported QlikView implementations across Seara, JBS Leather, JBS Australia, and Swift Retail; contributed to architecture, access, and reporting improvements.

Pre-Sales & QlikView Architect

Brazil

- Grew the customer base by 170% between 2011 and 2013, partnering with sales teams on QlikView demonstrations and BI solution design.
- Developed and presented analytics solutions for customers across television, retail, construction, and broadcast, translating business opportunities into QlikView use cases.

Business Analyst

Brazil

- Mapped business processes and created databases to support business-management analysis.
- Prepared reporting and presentations for executive audiences.
